## Carpet Cleaning Machine cleans up to 8,000 sq ft/hr.

**August 6, 2010** - Cascade 20 carpet extractor utilizes Continuous Flow Recycling technology that enables cleaning solution to be filtered and recycled, minimizing need to refill tanks significantly. It also uses moisture controlled wand technology to remove deep-down soils, leaving carpets thoroughly clean with rapid dry times.

Carpet Cleaning Machine cleans up to 8,000 sq ft/hr.

"new generation" CFR cleans up to 8,000 square feet per hour, making it one of the highest rated extractors in its class when it comes to worker productivity.

That's because the Cascade 20 uses patented Continuous Flow Recycling technology. With this system, cleaning solution is filtered and recycled, minimizing the need to refill tanks significantly.

With its patented moisture controlled wand technology, the Cascade 20 is also exceptionally effective at removing deep-down soils, leaving carpets thoroughly clean with rapid dry times.

For more information, visit [www.cfrcorp.com](http://www.cfrcorp.com), or call toll-free: 800-533-2557.

specialty tools with an innovative, patented technology that is radically different from other carpet cleaning systems. Continuous Flow Recycling (CFR) technology provides superior moisture-controlled cleaning, faster drying times, and increased cleaning productivity that is unmatched compared to standard carpet extractors on the market today. Through a state-of-the-art recycling filtration system, coupled with moisture-controlled atomization wand technology to minimize carpet moisture, CFR is the Greenest carpet cleaning system in the industry today.
